ABOUT MYSELF

Web application programmer focused on backend development with professional experience of team work in previous projects. My goals are to contribute to the development of adaptable and professional WEB applications.

EXPERIENCE

R2 Systems SL. april 2021 - september 2021

Full Stack Developer Intern

Developer and designer of a responsive WEB application. An application with dashboard for technical support, with the objective of solving code problems from companies through tickets that are generated by them.

Mints.cloud august 2022 - march 2023

Backend Developer

Backend WEB developer. Using its own framework (a RubyGem's package manager), I developed applications with many teams for companies in order to distribute their marketing products.
